

What makes us different?

We believe, first & foremost, in honesty & integrity. No lip service. When we commit to doing it, consider it done. Too often, those looking to build or remodel are faced with the decision of blindly choosing a contractor to manage their project. How can you know whether or not the contractor you choose is going to be honest and fair? How do you know if they are going to build a quality project, complete it on time and within budget?

Our track record speaks for itself. We invite you to partner with Majestic Builders & experience a better way to build.

Commercial – Residential – Remodel

- ❖ Office Buildings
 - ❖ Restaurants
 - ❖ Recreational Facilities
 - ❖ Tenant Improvements
 - ❖ Multi-Family Housing
 - ❖ Municipal Buildings
 - ❖ School/Education Facilities
 - ❖ Religious Institution Buildings
- And more . . .

Build Majestic.**

World Class Construction Services

Majestic Builders is a licensed Utah County construction manager general contractor (CMGC) serving all of Utah with over 36 years in commercial and residential construction. We are consistently invited back to work with previous clients and architects because they can count on the quality of service we provide—not only in the final product but in our service and interaction throughout the entire construction process. We are there with you every step of the way to ensure we hand over the building you expect and the price we agree on.

Total Quality Management

To deliver a world-class quality project that is on time, on budget, and has superior workmanship requires an integrated team who is committed and accountable to each other. We are guided by this philosophy and will work diligently to help all team members understand how to apply Total Quality Management principles on our projects. We treat **everyone** on our projects as valued team members; from the project owner to the design team, from subcontractors to the team member sweeping the floor.

We invite you to partner with Majestic Builders (the contracting leader in Utah for Honesty & Integrity).

Experience a better way to build. Build Better. Build Smarter. Build Majestic – the Total Quality Way!

Majestic Builders is always dependable, honest, and willing to follow contract documents carefully... We have enjoyed our association with [the] company for many years and will continue to invite [them] to bid..." Michael Raymond, Raymond Van Nosedol & Associates (Architect)

"Majestic Builders construction operations proceeded smoothly and efficiently... completed on time, within budget and to a very high construction standard. [They] were a pleasure to work with during all phases of the construction." Central Utah Water Conservancy District
